The 4th partner meeting took place in Sibiu, Romania. The partners on the occasion of this event undertook a review of the first phase of the project, and the results gained so far. Following the outcomes of national stakeholder reviews, quality criteria and indicators for four key areas of Learning Regions were developed: Partnership, Participation, Progress and Learning. Furthermore the partners along with the EQAVET model elaborated a quality process cycle, adapted to the needs of adult education project and learning activities in Learning Regions, followed by a model which integrates the different elements of the R3L+ quality framework for Learning Regions.

During the second part of the workshop, based on the model a set of quality instruments for Learning Regions was discussed, such as handbook, good practice guide and training programme for managers of Learning Regions.
