

The R3L+ project took part in the EUROLOCAL conference, which has taken place Centre Loewenberg, Murten, Switzerland 27-29 October 2011. The Conference brought together academics and practitioners in practical sessions to explore all aspects of Learning Cities and Regions. At the same time delegates were given the opportunity to describe their own experiences and knowledge on this most important topic, followed by a series of excellent presentations and workshop events for some 50+ participants from 15 countries in Europe.

Prof. Thomas Eckert and Dr. Randolph Preisinger-Kleine on Friday morning conducted a panel session, during which the R3L+ approach was presented and discussed with stakeholders of Learning Cities and Regions in Europe, as well as representatives of OECD and UNESCO.
