

p&w praxis und wissenschaft projekt is a research organisation specialized in socioeconomic research, evaluation and quality development. Key staff members were involved in the evaluation of the ESF-support to systems and structures, whereas emphasis was put on systemic and structural impact of the German Learning Regions. p&w since 2007 is standing member of the board of German learning regions. p&w also is member of the European Quality.Net as well as the Capitalization and Evaluation Research Network (CERN). Under the Leonardo da Vinci programme p&w is currently developing a CQAF-based benchmarking tool for VET (BEQUAL).

p&w praxis und wissenschaft has coordinated several Leonardo da Vinci projects MAFF, Lingua-In-City, ICOVET and ICONET. Furthermore the organisation was / is partner in several Leonardo da Vinci network, research and pilot projects, like EVALII, Testscan, Observe, CERN, Action, TimeFuse, Quality.Net, BEQUAL and PwD Employ.
